EDUCATION

Tsinghua University

June 2025 (expected)

B.Sc. in **Fundamental Science (Physics)**

B.Eng. in **Electrical Engineering**

Major GPA: 3.86/4.0

PUBLICATIONS & MANUSCRIPTS

- [1] X. Wang, **Sheng Zhao**, Y. Wang, Z. Han, X. Tong, and X. Yi, “Raise your eyebrows: Investigating the impact of virtual avatar’s facial expression scaling on users’ perception of emotion and uncanny valley effect in social virtual reality,” *preprint*, 2024. [Online]. Available: <https://zhaosheng-thu.github.io/publications/chi25b-sub7664.pdf>.
- [2] **Sheng Zhao**, J. Zhu, X. Wang, H. Li, S. Zhang, and X. Yi, “Coordauth: A two-factor authentication method in virtual reality leveraging head-eye coordination,” *preprint*, 2024. [Online]. Available: <https://zhaosheng-thu.github.io/publications/imwut24a-sub3876.pdf>.
- [3] **Sheng Zhao**, J. Johnson, and Y. Yan, “Open your heart: Evaluating the impact of conversation strategies and multi-agent setting of llm assistants on user emotional support experience in virtual reality,” *preprint*, 2024. [Online]. RESEARCH EXPERIENCE

Tsinghua University

Apr 2023 - Jun 2024

Advisors: Xin Yi

Department of Computer Science and Technology

- Raise your eyebrows: Investigating the impact of virtual avatar’s facial expression scaling on users’ perception of emotion and uncanny valley effect in social virtual reality. [1]
- Coordauth*: A two-factor authentication method in virtual reality leveraging head-eye coordination. [2]

Tsinghua University

Nov 2023 - Jun 2024

Advisors: Zhiyuan Ma and Bowen Zhou

Department of Electronic Engineering

- 1Image2NovelViewSV3D*: Singe Image Guided 3D Stable Diffusion for Novel View Image Synthesis.

University of Rochester

Jan 2024 - Jun 2024

Advisor: Yukang Yan

Department of Computer Science

- Open your heart*: Evaluating the impact of conversation strategies and multi-agent setting of llm assistants on user emotional support experience in virtual reality. [3]

University of Michigan, Ann Arbor

Jun 2024 - Sep 2024

Advisors: Janet Johnson and Michael Nebeling

School of Information

- DISCO: Dsigning Intelligent Spaces for Collaboration in Mixed Reality.

** indicates the project was led by Sheng.

ACHIEVEMENTS

First Prize, 36th China Physics Olympiad (CPHO)	2020
First Prize (1st), The 12th Tsinghua University Digital System Design Competition, 800\$	2022
Second Prize, Tsinghua University Software Design Competition, 1100\$	2023
First Prize, The 3rd Tsinghua Craftsman Competition, delivering a speech, 450\$	2023
First Prize, Tsinghua University Academic Research Scholarship, 450\$	2023
First Prize, Tsinghua University Sports Excellence Scholarship, 450\$	2022, 2023
Level C, Tsinghua University 2024 'Academic Promotion' Plan, 800\$	2024
Level A, Tsinghua University 2024 'Exploring The World' Research Scholarship, 5000\$	2024

SKILLS

Programming Languages	C, C#, Python, Java, MATLAB and Verilog.
Tools	Unity 3D, Pytorch, Sklearn, Ubutun.
